Joint Injections – Shoulder and Knee: Suitable for Beginners and Experienced Injectors as a Refresher of Skills

In conjunction with Sulis Hospital

With [Mr Neil Bradbury](#), Consultant Orthopaedic Surgeon
and Specialist Knee Surgeon & [Mr Gavin Jennings](#),
Consultant Orthopaedic Surgeon & Shoulder Specialist

Wednesday 29th April 2026, 6.15pm dinner and registration,
practical session, 6.30pm – 8.30pm

Sulis Hospital, Foxcote Avenue, Peasedown St John, Bath,
BA2 8SQ

Please RSVP to [BGPERT](#)

Learning Objectives:

- Identify patients who are suitable for injection therapy versus physiotherapy, analgesia, or conservative care. Understand common shoulder and knee conditions that may benefit from joint or soft tissue injections.
 - Conduct structured assessments of shoulder and knee pain, including history, examination, and appropriate imaging.
 - Use safe, effective injection techniques through model practice or supervised training.
- Manage complications such as post injection flare, infection, and steroid related effects.

This meeting has been accredited by BGPERT. For more information about BGPERT including additional details about meetings visit our [website](#).

This meeting will be sponsored a pharmaceutical company paying for an exhibition space.
This event is operated independently, and sponsors have no editorial control over its contents, speakers or presentations.

This meeting has been organised and part funded by Sulis Hospital, Bath. For more information, please see their [website](#).
